Maharashtra IAP is proud of their dedication and devotion for the cause.

Upgrading knowledge and skills is a critical element in the future success of every IAPian, so in addition to dIAP, Maha IAP has come up with its own digital

platform. I appeal all city branches to utilize it for CMEs, webinars, case discussions and reach out state /nation wide. I am thankful to our national president dr Piyush Gupta, HSG dr Basavaraj and team CIAP for allotting various modules to our city branches. My sincere thanks to CIAP for allowing us to translate parental guidelines to marathi. My appeal to all esteemed members to visit our updated website and access our Window "My queryApp"

We are getting tremendous response to our program MAHA IAP KATTA which includes performances, discussions, interviews with experts from every field apart from academics. I am happy to mention that many celebrities from various fields visited our Katta and shared their views , experiences and success stories with us. Thanks to all of them and team MAHA IAP Katta.

This year we are coming up with mega project Sickle -Thalassemia prevention program" which will be continued for coming few years.Main object is to make our medical fraternity, Obstetricians and common public aware about the prevention of Sickle, thalassemia disease. It will be launched very soon.
